

An Easter Story Strip

Directions:

1. Color and cut out the story strips shown on the next page. Tape side A to side B to make one continuous strip. (Be careful to tape down all loose edges that could get stuck going through the slits for the stage.)
2. Color and cut out the theater or stage. Cut on the dotted lines so that your story strip will slide through.
3. Talk about the Easter story as you move the story strip to show the pictures one by one.
